Grapes, Peaches, Plums, Pears, Apples and Cranberries. Also—Green Tomatoes, Pickling Onions, Etc.

Prices away down, must be sold by Saturday night. Positively the last of the season.

R. C. MACDONALD.

Telephone No. 16.

The British Medical Association appointed a committee to make enquiries, in order to ascertain the average age of the different categories of drinkers, that is to say, those who refrain completely from alcoholic drink, those who indulge more or less in moderation, and those who drink to excess. This committee has handed in its report. Its conclusions are drawn from 424 deaths, which are divided into five categories of individuals, with the average of age attained by each:

Total Abstainers.	51 yrs. 22 days.
Careless drinkers.	50 " 57 "
Free drinkers.	47 " 59 "
Habitually temperate drinkers.	63 " 13 "
Decidedly intemperate drinkers.	53 " 3 "

O. FIELD.

## BIG BLAZE AT REGINA.

Eleven Buildings Gatted—Inefficient Fire Appliances—Estimated Loss \$50,000.

REGINA, Nov. 14.—The fire fiend again visited Regina this morning. The fire started in Curtis photograph gallery over Mowat Bros. store. Curtis went to breakfast leaving a lamp burning in the dark room and it is supposed that the lamp exploded, setting fire to the partition. The fire spread rapidly to Dawson's drug store and Mr. Dawson's family barely escaped with their lives.

By this time the fire had gained such headway that the fire brigade could do nothing. The chemical engine was useless with such a large fire. The horse power engine was tried but it would only suck wind. A bucket brigade was organized and fought heroically to keep the flames from spreading.

Smith and Ferguson's oil warehouse; Mowat Bros., butcher shop and a number of stables in the rear of the block were saved by almost superhuman efforts. Armour's building on the corner and a part of McCarthy's store were torn down to save Howson's new hotel. At one time the roof of the Windsor caught fire but the bucket brigade on the roof kept it safe.

The principal losers are:—Mowat Bros., wholesale and retail grocers, building \$2,000, stock \$8,000, insurance \$5,000; Dawson, druggist, building and stock about \$4,000, no insurance on stock, building partly insured; Curtis, photographer, loss \$800; insurance \$500; Pettigall, druggist, building \$1,800, partly insured, stock damaged in removal about \$1,500, fully insured; McCarthy, gent's furnishings, building \$2,000, stock removed but damaged \$1,200, fully insured; Hugh Armour, butcher, building \$1,000, insurance \$400, stock removed; Geo. Webb, building \$800, no insurance, occupied by a Chinese restaurant, owned by Chan Inn, and a barber shop by W. C. Kelly, stock removed; Major Montgomery, building \$600, insurance \$400 occupied by Wm. Williamson, confectioner and E. B. Read, tinsmith, stock removed, Lunan building \$2,000, insured, occupied by J. N. Chatwin, tailor, and Jas. Jeffrey, barber, stock removed; Chas. Howson, wholesale liquor store, building \$1,000, insured, stock removed but badly damaged.

## OUR SENATOR SPEAKS

At the closing gathering of Canadians at the Dominion Pavilion, Jackson Park, Chicago, among the speakers was Senator Perley, who spoke as follows:—"I am to-night a well satisfied Canadian because I feel that my country has taken no small part in this Exposition and that we shall derive a great benefit from it. We have brushed aside the erroneous views which Americans have entertained with regard to our country, and we have come out of the competition with a magnificent record. Our North-West Territories although cramped for time in which to prepare themselves for the Fair, have had a magnificent display in the Agricultural Building. We have shown Americans wheat weighing 66 pounds to the bushel, barley and oats unsurpassed, and other specimens of natural resources that have astonished them. As a farmer, following the noblest occupation that a man can attach himself to, I have every faith in my country and know that it is the coming home of millions. We are educating our people up to the proper appreciation of the nobility of farm life and we shall make Western Canada a paradise in the years to come. I shall be sorry to leave you and shall retain the most pleasing recollections of our summer's association in the White City."

## ARE HELD RESPONSIBLE

The engineer and conductor who are held responsible for the terrible railway accident at Battle Creek, Mich., are to be tried for murder on the verdict of the coronor's jury, which found them guilty of criminal negligence in the performance of their duty. Much sympathy will be felt for them, but the public interests demand that negligence by which lives are lost or endangered shall not go unpunished. If the law overlooked things of this kind it would not be safe for one to travel by our modern steam conveyances either on land or sea.

## A STORY FOR CHILDREN.

One bright morning in early November three lads, Arthur, George and Thomas learned that the sheet of water near their homes was frozen over and that it would be perfectly safe to venture upon it. Swinging their skates and shouting with boyish glee, they soon made their way to the river-side. Tom was the first of the trio to see his skates on and soon was describing wonderful figures on the glare ice and waiting impatiently for his companions to join him. "Do hasten, Arthur and George," he at length exclaimed, "for the morning will be gone. Come and I will race you!" This appeal did not have any effect on George and Arthur and Tom hastened back to see what was keeping them. He found them intently watching a poor lame Indian who was busily engaged in dragging out and piling firewood for his winter camp fire. Well did Tom know the struggle that was going on in his companions' breasts, for all three boys were widely known for their kind hearts. It was hard for them to leave the tempting ice, but in a twinkling their skates were off and they were soon helping the Indian. Arthur and Tom scoured the scrub for the dead wood and dragged it out into the open, where George piled it neatly. Meanwhile the Indian, whose name was Bruley, rested himself. Soon the boys had gathered together a famous pile of wood—enough to last poor Bruley for many days—and after receiving his faltering thanks they sped away to their sport, their little hearts glad at the consciousness of a kind deed wrought.

## Government Clerks Use Them.

OTTAWA, Nov. 13.—One striking feature of the Dominion civil servants is their esprit du corps. The actions of one member are sure to find favor in the eyes of all the others. This is strikingly illustrated by an incident that occurred recently. A clerk in one of the departments found himself the subject of kidney disorder. He began using Dodd's Kidney Pills and in a short time was completely cured. He had told some of his departmental conferees, and they watched his case closely. After he was cured, the story ran around the Government buildings like a trolley car, and to-day there are a great many of the clerks, who happen to have diseased kidneys, using this remedy.

## ADVICE THAT IS SOUND.

A gentleman in Brazil, writing to a friend in Australia regarding South America as a field for European immigration, concludes his letter with a bit of advice that reassures Canadians would do well to consider. He says: "And lastly I would say to anyone leaving territory under the British flag to think and consider well what he is about, and weigh well what he has sure and what his chances are in a country where he has even to learn the language, for, after all, there are no folks like one's ain folks."

## A ROYAL WELCOME

Extended to Lieut. Governor Mackintosh by Regina Citizens.

REGINA, Nov. 11.—The citizens of the Queen City presented Lieut. Governor Mackintosh with an address of welcome on Saturday which was couched in terms that expressed the warmth and loyalty of the people to the new governor. The address was read by Mayor Willoughby.

Mr. Mackintosh, in reply, made a very graceful speech. He referred to the progress of the North-West, the splendid work already accomplished; warned the people against demagogues, and in humorous terms met the request for his influence in inducing the government to have public buildings nearer the town, by suggesting that he looked forward to such an enlargement of the population and such great prospects that in the near future, although new buildings had to be erected, the present site would be in the very centre of the municipality. He also said they must remember that there were two awful dignitaries at Ottawa, one the finance minister and the other the auditor general, the two combined being terrible forces to contend against. He thanked them heartily for the kind references to his wife and family, apologizing for their absence by referring to the fact that the Canadian Pacific authorities had requested him not to bring them all at once unless he was anxious to force the company to increase its rolling stock. However, he had brought two as hostages, and when the remainder came in relays, and the whole were gathered under the family wing, they could only rely upon it, that not only would the population of the North-West be increased, but he hoped those who were coming would be found worthy of the regard of all classes. He would convey to his wife the pleasant message sent, and she was one who would appreciate the generous sentiment. In conclusion the Lieutenant-Governor spoke of the future of the North-West inviting those, who at any time thought his experience, his friendship, or his judgment would assist them, to come freely to him, for he was there not to seek a velvet cushion but to do hard work if necessary and to discharge his duty as a citizen as well as a representative of the Crown.

## I. O. F. CONCERT.

Sara Lord Bailey appeared to a well filled house in the town hall on Monday evening. The concert was under the auspices of the Independent Order of Foresters. Owing to unforeseen circumstances the orchestra which was engaged for the occasion failed to put put in an appearance. After a few introductory remarks Speaker Ross introduced Miss Bailey. This lady has evidently devoted considerable time to the study of elocution. Her lighter pieces "How the Ladies Usually Fish," "Money Musk," "Prompt Obedience" and "The Royal Bumper Degree," provoked considerable merriment, and her heavy numbers "Life for Life" and the "Chariot Race" were duly appreciated. Not the least interesting numbers on the programme were two songs by Miss Pauline Annable.

## BARKIS IS WILLIN'.

ST. JOHN'S, Nfld., Nov. 13.—The belief is general throughout the island that the government will introduce resolutions next session favorable to confederate with Canada. The government supporters are largely in favor of such resolutions and they are likely to pass.

### DISTANCE LENDS ENCHANTMENT.

All is not sunshine in the state of Washington if the "Wheat" Belt of Elberton, Whitman County is any criterion. It says:—"The printing business in Portland is in a deplorable condition, at a recent meeting of the Typographical Union of that place \$500 was drawn from the treasury to buy meal tickets for those who wished in the city, and to donate a sum to each member who wished to travel out. Tourists are warned to stay away. It is only a few months since Seattle and Tacoma did likewise."

Another report from a Washington newspaper conveys the intelligence that the farmers of Palouse County held a meeting a short time since for the purpose of organizing to prevent foreclosure of mortgages on their farms. About fifty names were secured to the constitution. One of the speakers stated that powder and ball would be resorted to in defence of their homes against greedy creditors when other means failed. The following resolutions were passed:—

Whereas, The producers of the Northwest, owing to the action of trusts and combines, which are the illegitimate offspring of our government, are unable to realize more than cost of production of all farm produce; and

Whereas, Through the action of the elements all crops were so badly damaged that fully one-half the crops are unfit for market, thereby rendering the producer unable to realize sufficiently to make both ends meet; and

Whereas, the merchants and men of all trades and professions are dependent directly or indirectly upon the products of the farm, as well as the farmer, to meet their obligations; and

Whereas, Through the hoarding and contraction of the currency and the withdrawal of credit the present condition has been brought about, and it will be necessary to have an extension of time for all debtors for at least twelve months; therefore be it

Resolved, That we, the people in mass meeting assembled, declare that for creditors to enforce payment of obligations in the present stress would bring disaster and ruin upon a large majority of our people, and prove a calamity to our country; and be it further.

Resolved, That we condemn the foreclosing of the mortgages and the issuing of judgments against the already overburdened people, as being unjust, morally and equitably. And further be it

Resolved, That we urge all debtors to pay their creditors such per cent. of their indebtedness as is possible without sacrificing their homes. And further be it

Resolved, That we, the people in mass meeting assembled, do ask our creditors to extend the time of credit for at least 12 months. And be it further

Resolved, That we declare our intention to sustain all debtors with moral influence until such time as by reasonable industry and economy they can meet their obligations.

### CHURCH SUBSCRIPTIONS.

An exchange tells us of three churches, one of which is in the hands of the sheriff and the other two are threatened with like proceedings. These churches were built on the strength of sums of money subscribed by members of the congregation and in the three cases, the exchange goes on to say, about ten per cent of the subscriptions were paid. This practice is the source of many of the difficulties connected with church work. A church subscription is generally the last obligation a man will meet, that is if he regards it as an obligation at all. There are those who never hesitate a moment in placing large amounts opposite their names and with an air that says: "See what manner of man I am!" But when the collector comes around he will another tale unfold. True, there are those who are prevented by circumstances over which they have no control from fulfilling church obligations that they view in the same light as their notes of hand; but the man who subscribes that he may be seen of men, and afterwards does not pay and makes no effort to do so is a fraud and a humbug.

### NOTES AND COMMENTS.

Presbyterian liberal clergymen in the United States are protesting against the right of the General Assembly to deal with doctrinal statements under the guise of interpretation. They warn devout men to withdraw from the ministry on account of the different interpretations of doctrines and calls on all presbyterians to stand together for more liberal treatment in matters of religious opinion. The conference was composed mainly of supporters of Dr. Briggs, including eminent divines from all parts of the country.

A sharper named Gardner has been victimizing British Columbia dealers in ladies' wear. His plan was to take orders from samples for a large shipment of goods to be sold on commission. But the goods had to be insured and it was only reasonable that the merchant who was being entrusted with them and getting a handsome commission should put up the amount of the premium. No goods have yet arrived nor can the parties interested get any answer to their communications. But this is not surprising as Gardner is in Montreal answering the letters of former victims.—Regina Standard.

The greatest stretch of straight rail way track—more scientifically termed "tangent"—in North America, is to be found on the N. & S. line of the C. P. R., which connects Moose Jaw with St. Paul and Minneapolis. Beginning at a point a few miles from Moose Jaw it continues for seventy miles and is altogether in Canadian territory. The next longest is west of St. Thomas on the Michigan Central and is about 67 miles. The longest stretch of tangent in the world is to be found in the Argentine Republic and continues for 250 miles. It completely eclipses the model line of the Czar of Russia from St. Petersburg to Moscow which—taking a rule and placing it on the map—he ordered to be built perfectly straight. On the survey being made it was found that lakes, hills and rivers would not admit of it and though as straight as possible it is anything but a perfect tangent.

At a recent meeting of the Canadian Press Association the following resolution was passed:—That whereas J. V. Ellis editor of the St. John, N.B., Globe has been imprisoned and fined under the law for contempt of court; and whereas it is apparent in his case the judicial prerogative of punishment by the exercise of that law was not unjustly strained and, whereas in this case, whatever its own merits or demerits indicate, that the law relating to contempt of court in its present vagueness is liable to be stretched by unworthy judges or magistrates into the exercise of gross injustice; Resolved, that the Canadian Press Association petition the Dominion parliament to define the law of "contempt of court" in such a manner that, while judges and magistrates may have summary power to maintain the decency and dignity of proceedings in court and power also to

check and punish criticism or proceedings outside the court which may prejudice juries or may before delivery of judicial decision assail the court thereof, there shall be no possibility of any citizen being otherwise subjected without trial by his peers to arbitrary punishment for any alleged contempt or libel.

### COMMUNICATION.

#### Practices of Insurance Agents.

To the Editor of the Times,  
Dear Sir,

Will you kindly give insertion to the following facts which will be of some importance to the public who are being wilfully deceived by unscrupulous insurance agents.

I have been shown at Prince Albert estimates made out and left with intending insurers, purporting to be for endowment policies instead of 20 payment Life Policies. In the first instance the rates are nearly double those for 20 Payment Life Policies, and the results at the end of 20 years are, of course, proportionately larger; but the point I have to bring before the public is this: that the agents I refer to, namely those of the Canada Life Confederation and the Great West, try to make the public believe that they can give Endowment policies at a very much lower premium than the other companies doing business in a straight forward, legitimate way and whose agents are above such pettifogging conduct.

Since I came to Moose Jaw I have been informed by a leading citizen that one of the Canada Life agents who passed through here not many weeks since offered him \$5,000 on a 20 year Endowment plan for about \$140 a year—or a rate of about \$28 per \$1,000—whereas no company in Canada would give a man at his age anything but a 20 Payment Life at such a rate. When I get the estimates given to party referred to I will lay the facts before the Canada Life Company who would not approve of such conduct on the part of their agents. I saw the estimates given by the agents of the Great West and Confederation companies lately at Prince Albert when I wrote up over \$52,000 last month.

The agent of the Confederation tries to do business on the Shibbeen style by running down other agents and stating that some companies will not hold out more than two or three months, though the companies he refers to show a much larger surplus of assets over liabilities than the company he represents. His statements made at Prince Albert in July of August last, in reference to the company I have the honor to represent in the Territories as their District manager; I have the handwriting of the gentleman to whom he made such statements and that gentleman is a man of position too and one whose word is considered to be as good as his bond.

I can't expect much from men of his stamp. You, cannot, Sir, expect blood from an Aberdeen turnip.

Yours truly,  
J. CHURCH.

Moose Jaw, Nov. 13.

### W. C. T. U. COLUMN.

Clippings from a Sermon Recently Delivered by Rev F. H. Adams, Pastor First Baptist Church, Halifax.

#### WOMAN'S POWER IN THE 19TH CENTURY.

Whatever different conclusions ancient history may suggest from modern history one cannot infer that the Almighty Father created woman to be a helpmeet to man only in the domestic circle.

On individuals, in communities and among nations, woman has made her secret and subtle power felt in so many ways and for such diverse ends, that she has now accorded a position superior to any attained by her in the preceding centuries.

It is difficult to see what could be done with our educated young women to-day if the ancient limitations were still enforced. If women were denied the privileges she enjoys to-day I have

no hesitations in affirming that such an act would invite the abrogation of the most royal influences, which next to the Divine power, crown the civilization of this latter half of the present century.

Woman has made the English and Canadian home what it is to-day, whether good or bad. Generally it is the pride of every right thinking descendant of Briton and we point our enslaved Oriental friends to it as the result of Christianity's exaltation of women. Woman has made our public schools what they are to-day by her possession of love and purity, more patience sympathy and tact, if less than men. She has exercised a moulding power over characters during the last quarter of a century that has placed our schools on an eminence they never had in the days when the other sex reigned supreme.

We, who can recall the pedagogy of thirty years ago, cannot remember having loved him as our children love the lady teacher of to-day. The small salaries women receive for hard, daily toil done so efficiently in educating the rising youth is out of all proportion to the permanent service they are rendering the nation.

In the world of commerce woman occupies such a large place that vast mechanism would come to a standstill if all female workers were withdrawn from it. Not only is she a great mechanical power, but I most willingly believe that the presence of women in thousands of stores has helped morally to purify the atmosphere.

But it is in the world of religion and philanthropy that woman has exercised her greatest and grandest influences. It is hard to believe that God's word prohibits woman doing anything in the vast realm of religious, social and moral reform. While men have had the glory attached to the names for great reforms. Women have been the most potent factor in educating and agitating the opinions of the men till actions were inevitable.

# SALMAGUNDI.

To point a moral and adorn a tale!  
—JOHNSON

The man who reads many books is not necessarily more intelligent than the one who reads only a few. There is such a thing as over-feeding in books the same as in food for the body. Some of the best read men in the world, men whose memories are stored with information derived from the works of others are singularly inefficient. Their knowledge does not enable them to compete with men who are infinitely less learned, but who have the faculty of making successful use of what they do know. "What is the education of the generality of the world?" said Burke. "Reading a parcel of books! No! Restraint and discipline, examples of virtue and justice, these are what form the education of the world." The man who relies on books entirely is sure to find them inadequate and disappointing. They do not cover all contingencies, and when they fail him he is helpless, as they have taken away his self-reliance and his independence of thought and judgment. He knows only what the books have told him, and they have not told him how to deal with the numerous small circumstances which collectively count for so much in all schemes and pursuits.

"Mind your own business," is an expression very often in use, and not infrequently it would be as properly applied to the speaker as to the person to whom it was addressed. Sometimes it is spoken very opportunely and sometimes it had better been withheld; for those who neglect their own business are not the proper persons to correct others for disregarding theirs. Yet, still, without reflecting whether we are faulty in this respect or not, we are all too ready to cry out to those who intrude upon, or among us, "Mind your own business," for true it is that we see a small hole in our neighbor's coat plainer than we see a much larger one in our own. We are, indeed, most of us a great deal disposed to neglect our own business, and to intermeddle in the business of others. Whenever we spread an evil report, the truth of which is doubtful, but which must by its publicity do some one an injury, we are travelling out of our way to do mischief. It would be a better deed to hide a fault than to publish it. It would be better to correct failings of our own than to make known those of our neighbors; therefore, by spreading an evil report—whether it be founded or unfounded—we are not minding our own business. Whenever we busy ourselves in settling differences or it may be interfering in some other matter of a more private nature without being asked, or waste our time in pursuing idle and visionary projects; in each and all these cases we are not minding our own business. Everyone has business of some kind or other, which he ought to attend to; and whether it be a family, a farm, a congregation, or a kingdom, it is sure to be better managed when each responsible person minds his own business. When it is that we are dissatisfied with ourselves—that our affairs get into confusion—that we are behindhand in what we have undertaken to do! Why when we have been idle, meddling, thoughtless, or foolish; when, in short, we have not minded our own business. Look at the world around you, or, if the limits of your experience do not extend so far, look at the neighborhood, or town, or village around you, and doubtless in many instances you will observe where contention, strife, discord, disturbed families, and broken hearts have prevailed, someone has been meddling, someone has been gossiping, someone has not been minding their own business. Depend upon it, it is an excellent thing to mind your own business; by doing this you will be more respected, more useful, more benevolent and ten times more happy. Do this and things will go right; neglect it and everything will go wrong. If you have any love for your neighbor, or any respect for yourself mind your own business. Show no

a man who does not mind his own business and I will show you one who will soon be in trouble.

ESTA MAZA.

## GENERAL NEWS OF THE DAY.

The Queen of the Hawaiian Islands is to be restored to the throne.

The long expected revolution has begun in Cuba and already a scrap has taken place between Cuban and Spanish forces.

In the new tariff bill in the United States a duty is to be put on crude and refined sugars and the bounty on sugars will be removed.

The Greek Ministry has been defeated in the election of a president of the Chamber of deputies. The Cabinet at once resigned.

Winnipeg bakers have reduced the price of bread.

The  
North-Western  
Line

Note the following from the World's Fair  
letter in the Minneapolis Spectator—

"The committee which compiled statistical information relating to American railways were high in their praise of the manner in which the great roads prepared facilities in caring for the enormous traffic occasioned by the World's Fair and while all the Chicago, St. Paul lines were commended in favorable terms. The North-Western Line was especially commended as between Chicago, St. Paul and Minneapolis. This route another laurel to those already gained by Minnesota, as The North-Western Line—C., St. P. & O. Railway—is one of the recognized roads of the North Star State."

Our trains are equipped with Vestibuled Gas-lighted Buffet Sleepers and Free Reclining Chair Cars.

T. W. TEASDALE,

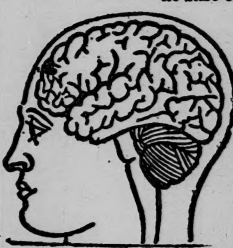

Gen'l Passenger Agent.

St. Paul, Minn.

## THE GREAT SOUTH AMERICAN NERVINE TONIC

AND  
STOMACH AND LIVER CURE

The Wonderful HEALTH BUILDER & NERVE FOOD  
Chronic Diseases are caused by Deranged Nerve Centres  
at base of the Brain.

LATE discoveries have absolutely proven that the Stomach, Liver, Lungs, and indeed all internal organs, are controlled by the nerve centres at the base of the brain. The manufacturer of SOUTH AMERICAN NERVINE has studied this subject closely for more than twenty-five years, and has lately demonstrated that two-thirds of our Chronic Diseases, are due to the imperfect action of nerve centres, either within or at the base of the brain and not from a derangement of the organs themselves; hence that the ordinary methods of treatment are wrong.

As all know, a serious injury to the spinal cord, will at once cause Paralysis of the body below the injured part, it therefore will be equally well understood, how the derangements of the nerve centres, will cause the derangement of the different organs of the body which they supply with Nerve Fluid or Nerve Force.

The wonderful success of SOUTH AMERICAN NERVINE is due alone to the fact that it is based on the foregoing principle. The use of a single bottle of this remedy will convince the most incredulous. It is indeed, a veritable Nerve Food and Will Relieve in One Day the varied forms of Nervous Disease and Stomach Troubles.

### Nervous Diseases.

This class of diseases, is rapidly increasing each year, on account of the great wear our mode of living and labor imposes upon the nervous system. Nine-tenths of all the ailments to which the human family is heir, are dependent upon nervous exhaustion, impaired digestion, and a deteriorated and impoverished condition of the blood. The SOUTH AMERICAN NERVINE is a great nerve food and nerve builder and this accounts for its marvellous power to cure the varied forms of nervous disease, such as Neuralgia, Nervousness, Nervous Prostration, St. Vitus's Dance, Nervous Choking, Nervous Paroxysms, Twitching of the Muscles, Hot Flashes, Mental Despondency, Forgetfulness, Sleeplessness, Restlessness, Nervousness of Females, Palpitation of the Heart, Sexual Weakness, etc., etc.

### A SWORN CURE FOR ST. VITUS'S DANCE.

CRAWFORDVILLE, Indiana.  
My daughter, twelve years old, had been afflicted for several months with Chorea or St. Vitus's Dance. She was reduced to a skeleton, could not walk, could not sit, could not swallow anything but milk; I had to handle her like an infant. Doctors and neighbors gave her up. I commenced giving her the SOUTH AMERICAN NERVINE, and the effects were very surprising. In three days she was rid of the nervousness, and rapidly improved. Four bottles cured her completely. I think the SOUTH AMERICAN NERVINE the greatest remedy ever discovered and would recommend it to everyone.

Subscribed and sworn to before me this May 19, 1893.

CHAS. M. TRAVIS, Notary Public.

### A WONDERFUL CURE FOR

INDIGESTION and DYSPEPSIA.

Loss of Appetite, Weight and Tenderness in the Stomach, Sour Stomach, Pain in the Stomach, Wind upon the Stomach, Nausea and Sick Stomach, Sick-Headache, Hiccough, Water-Brash, Heartburn, Vertigo and Dizziness, Sleeplessness, Frightful Dreams, etc.

The Stomach suffers more than any of the other organs from disease, because into it are taken so many indigestible and irritating substances as articles of food. In its great effort to digest these, it soon becomes weakened and diseased. Under such circumstances, it is not wonderful, that so many complain of Indigestion and weak stomachs. When the Stomach fails to digest and assimilate the food, the whole body falls into a state of weakness and decay, for Nature has decreed that the body must constantly receive nutriment through the Stomach, to repair the waste of tissue constantly going on in the system.

### The South American Nervine

Is probably the greatest remedy ever discovered for the cure of all Chronic Stomach troubles, because it acts through the nerve centres. It gives marked relief in one day, and very soon effects a permanent cure. The first bottle will convince anyone that a cure is certain.

WHAT EX-MEMBER OF PARLIAMENT, REUBEN E. TRUMAN, SAYS.

I have been for about ten years very much troubled with indigestion and dyspepsia, have tried a great many different kinds of patent medicines, and have been treated by a number of physicians and found no benefit from them. I was recommended to try South American Nervine. I obtained a bottle, and I must say I have found very great relief, and have since taken two more bottles, and now feel that I am entirely free from indigestion, and would strongly recommend all my fellow sufferers from the disease, to give SOUTH AMERICAN NERVINE an immediate trial.

It will cure you.  
July 16th, 1893.

(My Signature) Reuben E. Truman

Walkerton, Ontario.

Price, One Dollar

HARTFORD CITY, Blackford Co., Indiana, June 8, '93

GENTLEMEN: I received a letter from you May 29th, stating that you had heard of my wonderful recovery from a spell of sickness of six years duration, through the use of SOUTH AMERICAN NERVINE, and asking for my testimonial. I will gladly state how I was afflicted and how I was delivered from my pain and suffering. I was near thirty-five years old, when I took down with nervous prostration. Our family physician treated me, but without benefiting me in the least. My nervous system seemed to be entirely shattered, and I constantly had very severe shaking spells. In addition to this I would have vomiting spells, and there would be from eighteen to twenty days at a time that I could not retain anything on my stomach. Many consultations were held by physicians over my case, but they all agreed that I would never leave my bed. During the years I lay sick, my folks had an eminent physician from Dayton, Ohio, and two from Columbus, Ohio, to come and examine me. They all said I could not live. I got to having spells like spasms, and would lie cold and stiff for a time after each. At last I lost the use of my body—could not rise from my bed or walk a step, and had to be lifted like a child; all the time suffering intense pain, and taking almost every known medicine. Part of the time I could read a little, and one day saw an advertisement of your medicine and concluded to try one bottle. By the time I had taken one and one-half bottles I could rise up and take a step or two by being helped, and after I had taken five bottles in all I felt real well. The shaking went away gradually, and I could eat and sleep good, and my friends could scarcely believe it was I. I am sure this medicine is the best in the world. It was a god-sent to me, and I believe it saved my life. I give my name and address, so that if anyone doubts my statement they can write me, or our postmaster or any citizen, as all are acquainted with my case. I am now forty-one years of age, and expect to live as long as the Lord has use for me and do all the good I can in helping the suffering.

MISS ELLEN STOLTE.

Will a remedy which can effect such a marvellous cure as the above, cure you?

A MINISTER OF THE GOSPEL SPEAKS.

PETERBORO, Ontario, June 27, 1893.

To the Proprietor of South American Nervine.

DEAR SIR,—I have much pleasure in recommending the great SOUTH AMERICAN NERVINE to all who are afflicted as I have been, with nervous prostration and indigestion. I found very great relief from the very first bottle, which was strongly recommended to me by my druggist. I also induced my wife to use it, who, I must say, was completely run down and was suffering very much from general debility. She found great relief from SOUTH AMERICAN NERVINE, and also cheerfully recommends it to her fellow sufferers.

(My Signature) Rev W S Barker

Sick Headache.

Is dependent on deranged nerve centres and indigestion. Hence its cure must come through building up the Nervous System and curing the Stomach. SOUTH AMERICAN NERVINE will absolutely cure this dreaded malady and prevent its return.

### LOCAL AND GENERAL NEWS.

A dancing party is being held at Mrs. McFall's to-night.

Mr. and Mrs. J. T. Simpson were in Regina on Monday.

Mr. Geo. Barber has been promoted to a position in the C. P. R. telegraph office.

Mr. J. B. Nicholson left on Wednesday night to visit his friends in the Old Country.

A. W. Wright, the future mine host of the Portal hotel was in town on Tuesday.

Asst.-Agent Weiss, of North Portal, has been promoted to a position in the freight department.

Dr. P. F. Siz, Surgeon Dentist, Regina, will be at the Dining Hall, Moose Jaw, on Dec. 11th and 12th, 1893.

Mr. A. D. Ferguson, of Regina, spent Sunday in town on his return from a trip to Chicago and Toronto.

Tickets are now being sold for the Thanksgiving supper to be given by the Ladies' Guild of St. John the Baptist Church, on Thursday evening next.

Rev. F. B. Stacy is absent on a tour through the Territories. Rev. J. H. King, of Regina, occupies the pulpit of the Methodist Church next Sunday.

Bills are out for an auction sale of the household effects of Rev. H. W. Mack, who is leaving for the east. The sale takes place on the 28th inst.

Reports from the meteorological bureau state that the storm of yesterday extended over the entire country, being intensely severe in the region of the Chevalier City.

Joseph Royal spends the winter in Montreal. It is expected that Royal will run for Provencier on the resignation of Lariviere which will probably take place next spring.

For SALE.—A first-class sewing machine. Apply to

**R. L. SLATER**

G. A. Henderson, of Winnipeg, compiler of the Henderson Gazetteer was in town yesterday, obtaining information for the directory for ninety four.

Qu'Appelle Progress: Mrs. Cline, of Moose Jaw, who has been visiting relatives and friends here went to Grenfell on Tuesday morning.

An interesting pugilistic encounter took place in the office of one of our justices of the peace on Monday. The Marquis of Queensbury rules were observed. We have not as yet learned the names of the backers or seconds. The fight was declared a draw.

**DR. PRICE'S**  
**Cream Baking Powder.**

The only Pure Cream of Tartar Powder.—No Ammonia; No Alum.  
Used in Millions of Homes—40 Years the Standard.

The North-West Mounted Police Depot Division Quadrille Club give the first of their winter season dances at the Regina barracks on Friday evening next.

English Spavin Liniment removes all hard, soft or calloused Lumps and Blisters from horses. Blood Spavin, Curbs, Splints, Ring Bone, Sweeney, Stiffes, Sprains, Sore and Swollen Throat, Coughs, etc. Save \$50 by using one bottle. Sold by W. W. Bole.

One of the boarders at the Dining Hall will lock his door in the future, when he betak's himself to slumber. Six-button kid gloves come rather expensive in these hard times.

The partnership which has till recently existed between Messrs. Alex. Davidson and J. A. McDonald, general blacksmiths, has been dissolved. Mr. McDonald continues the business in his own name.

The children of the Methodist Sabbath School are practising for their Christmas Entertainment, which is to be held on Christmas night.

Conductor Vance, who has been attending a convention of the Order of Railway Trainmen at Boston, returned to Moose Jaw on Tuesday morning. While absent Mr. Vance also visited his old home in De Bert, Nova Scotia.

The lime-light stereopticon exhibition given in the Salvation Army Barracks on Friday evening was a success. The exhibition was of a most interesting nature as was also the lecture description of Salvation Army work.

On Monday last as Lieut. Governor Mackintosh was being driven to the Government offices the team took fright at a load of coal and ran away, dumping His Honor out on the prairie. He was confined to his room for a day on account of the shaking-up he received.

The many friends of Rev. Mr. Mack will regret to learn that he intends resigning his charge of the Moose Jaw Baptist Church. The rev. gentleman has been an active worker among the people and has many staunch friends not only among his own congregation, but among the citizens of the town generally.

Relief in Six Hours.—Distressing Kidney and Bladder troubles relieved in six hours by the "NEW GREAT SOUTH AMERICAN KIDNEY CURE." This new remedy is a great surprise and delight to physicians on account of its exceeding promptness in relieving pain in the bladder, kidneys, back and every part of the urinary passages in male or female. It relieves retention of water and pain in passing it almost immediately. If you want quick relief cure this is your remedy. Sold by W. W. Bole.

A sensation has been created in Ottawa by the refusal of the Governor-General to accept an invitation to patronize the performance of the "Mascotte" opera by young people connected with Grace church on the ground that many of the congregation think the opera in question is of doubtful morality.

A subscriber, the other day, in paying up his arrears to THE TIMES remarked that he saves annually many times the price of his subscription by what he saves in purchasing his goods. He always reads the advertisements and takes advantage of low prices quoted. He spoke of one advertisement in particular that he always reads with interest, for, to use his own words, "It has something fresh in it every shot." A word to the wise, etc.

The work of reparation goes steadily on, says the Montreal Witness, and day after day young men from Stormont Dundas and Glengarry who left their homes at different times in the past ten years to try and better their fortune in the land of Uncle Sam are returning to their old homes. They come, says the Witness, from nearly every State in the Union, but particularly from New England, Colorado, Montana, Wisconsin, Minnesota and Michigan, and all tell the same story of stagnated business and hard times. History repeats itself about every five minutes. That is why there are so many so-called chestnuts.

Mr. N. F. Davin, M. P. for Western Assiniboia, has been invited by the Junior Liberal Conservative Association of Calgary to deliver an address at as early a date as possible.

Mr. T. W. Robinson is expected to return to-morrow from Winnipeg whence he was called by the sad intelligence of the death of his brother, Mrs. Robinson and family, it is expected, will join him in Winnipeg on her return from Ontario.

Mr. Ronald G. Macdonald, of Battleford, is in town on a brief visit to his brother, R. C. Macdonald. Mr. Macdonald has been on a business trip to Winnipeg. While here he has been renewing acquaintance with a number of Ottawa friends.

The mission services which are being held in St. John the Baptist Church are well attended. The chief feature of each evening's service is the eloquent and impressive addresses delivered by Rev. H. J. Bartlett of Regina. It is hoped that much good will result from the mission.

The deputy postmaster general has sent out further instructions to postmasters relative to "dunning" circulars. They are to the effect that care should be taken to exclude from the mail all correspondence posted by collecting agencies, in which the dunning character of their business is indicated.

A British Columbia paper says that tramps are becoming an increasing nuisance on the C. P. R. and have now sometimes to be ejected by force from trains travelling through that province. They secrete themselves in any out-of-the-way corner they can find and some times elude official vigilance for a time very ingeniously.

As number two pulled out of the station on Wednesday night she ran into a flat car which was standing on the main line just across the bridge. One end of the car was knocked off the track. The pilot of the locomotive was slightly damaged. The train was backed up to the station while the obstruction was being moved to the gravel pit. The train was only delayed a few minutes. It is supposed that, in switching one of a number of flat-cars which were ahead of the engine, because detached and ran down the grade to the bridge unnoticed.

This week's TIMES chronicles two marriages of well-known Moose Jaw people. One took place on Wednesday at the residence of Mr. Lawrence King when his son Percival King and Miss Lillian Gage Hall, of Manchester, England, plighted their troth. In the second Mr. A. V. Richards and Miss Isabella J. White, were the contracting parties. Rev. W. L. Clay and Rev. H. W. Mack were the respective officiating ministers. The TIMES extends congratulations.

There was a meeting of the Executive Committee of the Synod of the Diocese of Qu'Appelle on Thursday, the 9th inst., in the Vestry of the Pro-Cathedral, Qu'Appelle Station, when the following members were present: His Lordship the Bishop of Qu'Appelle the Revs. J. P. Sargent, W. E. Brown, W. Nicolls, G. N. Dolbe, Mitton, and Messrs. H. Fisher (Treasurer), J. H. Boyce, W. B. Sheppard, R. B. Gordon, J. Brown and R. Lake.

The C.P.R. has received the highest award at the World's Fair for its standard passenger train and locomotive. This award reads as follows:—"For excellence of design and construction of a handsome transcontinental passenger train, having special features of merit in its colonists' sleeping cars." "Locomotive, for general excellence of workmanship and design, especially of the steel cab lined with wood, and manner in which main frames over cylinder saddle are braced." The company has also received an award on the models of their Japan and China steamers.

### MARRIED.

KING—HALL.—On the 13th instant, by the Rev. W. L. Clay, at the residence of Lawrence King, Percival King to Lillian Gage Hall, elder daughter of William G. and Emma Hall, of Manchester, England.

RICHARDS—WHITE.—On Nov. 15, 1893, at the residence of the bridegroom's brother, Moose Jaw, by Pastor H. W. Mack, Alfred V. Richards to Isabella J. White, both of Moose Jaw, Assa., N. W. T.

Rheumatism Cured in a Day.—South American Rheumatic Cure for Rheumatism and Neuralgia radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75 cents. Sold by W. W. Bole, Druggist.

## What The People Want!

In order to meet the demands and requirements of the people

### As To Low Prices.

They must certainly first consider that if we were doing a credit business, we would of course have to run risks and naturally have to charge the goods with those risks, and therefore would be unable to sell so cheap. But we are not doing a credit business and therefore we don't have any risks—and can afford to sell cheap, and cheap will sell for cash.

Small profits and quick returns is our motto.

**M. J. MacLeod.**

WM. GRAYSON,

Vendors Advocate,

O. B. FYSH, Moose Jaw.

Auctioneer.

Dated this 24th day of November, 1893.

## NOTICE.

THE following is a summary of the Regulations with respect to the manner of recording claims for MINERAL LANDS other than Coal Lands, and the conditions governing the purchase of the same.

Any person may explore vacant Dominion Lands not appropriated or reserved by Government for other purposes, and may search therein, either by surface or subterranean prospecting, for mineral deposits, with a view to obtaining a mining location. For the same, but no mining location shall be granted until actual discovery has been made of the vein, lode, or deposit of mineral or metal within the limits of the location of claim.

A location for mining, except for Iron or Petroleum, shall not be more than 4,000 feet in length, nor more than 600 feet in breadth. A location for mining Iron or Petroleum shall not exceed 160 acres in area.

On discovering a mineral deposit any person may obtain a mining location, upon marking out his location on the ground in accordance with the regulations on that behalf, and filing with the Agent of the Dominion Land for the district, within sixty days from discovery, an affidavit in form prescribed by Mining Regulations, and paying at the same time an office fee of five dollars, which will entitle the person so recording his claim to enter into possession of the location applied for.

At any time before the expiration of five years from the date of recording his claim, the claimant may, upon filing with the Local Agent that he has expended \$500 in actual mining operations on the claim, by paying to the Local Agent thereof \$5 per acre, cash, and a further sum of fifty dollars to cover the cost of survey, obtain a patent for said claim, as provided in the said Mining Regulations.

Copies of the Regulations may be obtained upon application to the Department of the Interior.

A. M. BURGESS,

Deputy of the Minister of the Interior, Department of the Interior, Ottawa, July 1890.

### Homestead Regulations.

All even-numbered sections of Dominion Lands in Manitoba and the North-West Territories, except Sand 26, which have been homesteaded, reserved to provide wood lots for settlers, or other purposes, may be homesteaded by any person who is sole head of a family, or made over eighteen years of age to the extent of one quarter section of 160 acres, more or less.

### ENTRY.

Entry may be made personally at the local land office in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, or the Commissioner of Dominion Lands, Winnipeg, receive authority for some one to make entry for him. A fee of \$10 is charged for an ordinary homestead entry; but for lands which have been occupied an additional fee of \$10 is chargeable to meet inspection and cancellation expenses.

### HOMESTEAD DUTIES.

Under the present law homestead duties may be performed in three ways, and on making application for settlement the settler must declare under which of the following conditions he elects to hold his land:—

1. Three years' cultivation and residence during which period the settler may not be absent for more than six months in any one year without forfeiting the entry.

2. Residence for two years and nine months anywhere within two miles of the homestead quarter section, and afterwards actual residence in a habitable house upon the homestead for three months next prior to application for patent. Under this system 10 acres must be broken the first year after entry, 15 additional in the second, and 15 in the third year; 10 acres to be in crop the second year and 25 acres the third year.

3. The five years' system under which a settler may reside anywhere for the first two years (but must perfect his entry by commencing cultivation within six months after the date thereof), breaking five acres the first year, cropping three acres and breaking 10 acres additional the second year, and also building a habitable house before the end of the second year. The settler must commence actual residence on the homestead at the expiration of two years from the date of entry, and thereafter reside upon and cultivate his homestead for at least six months in each of the three next succeeding years.

### APPLICATION FOR PATENT

may be made before the local agent, or any homestead inspector. Before making application for Patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands of his intention to do so. When, for convenience of the settler application for patent is made before a homestead inspector, a fee of \$5 is chargeable.

### SECOND HOMESTEAD

may be taken by anyone who has received a homestead patent or a certificate of recommendation countersigned by the Commissioner of Dominion Lands, upon application for patent made by him, or had earned title to his first homestead on, or prior to the second day of June, 1889.

### INFORMATION.

Full information respecting the land, timber, coal or mineral laws, and copies of these Regulations, as well as those respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Dominion Lands, Winnipeg, Manitoba; or to any of the Dominion Land Agents in Manitoba or the North-West Territories.
